

# Oculag Eye-drops

Care product for daily eye care and calming of irritated eyes

## Contents:

Distilled water, sodium hyaluronate, Argentum colloidal 40 ppm, Euphrasia officinalis

## Used for daily eye care and calming of irritated eyes.

- daily eye care
- help calm irritated eyes
- eliminates germs in a short time (Crede-Prophylaxis)

## Application possible for:

- conjunctivitis
- keratitis sicca
- corneal ulceration (Ulcus)
- conjunctivitis follicularis
- no side effects

## Application recommendation:

Apply a few drops into the eye. Repeated use throughout the day is possible.

**Expiration:** 24 months. After opening use within 12 weeks.

**Protect from frost and direct sunlight!**

Art.10211

Content: 10ml

## Further information:

### Euphrasia officinalis eyebright:

Applicable for eye disorders such as irritations, inflamed margins of the eye lid and conjunctiva, visual disturbances and eye fatigue.

### Sodium hyaluronate: (HA)

Binds moisture (0,4 % hyaluronate binds moisture in the eyeball)

Acts as carrier to introduce substances into the deeper cell layers.

Has anti-inflammatory properties

### Argentum colloidal:

A prestigious american science magazine wrote: "Collodial silver turns out to be a miracle of modern medicine. Whereas an antibiotic eliminates about a dozen different pathogens the collodial silver will eliminate around 650." For further information on this see also our product sheet Argentum colloidal.

## CUTAN Liquid Dog and Cat

Spray to assist wound healing and as therapeutic aid

### Contents:

Distilled water, sodium hyaluronate,  
Argentum colloidal 40 ppm

### Usage:

Application fields:

- intensive supporting therapy care of skin lesion, scars and wounds.
- support for wound healing
- concomitant therapy for dermatological diseases

### Application recommendation:

Apply several times per day to the affected areas.

Cutan Liquid spray is on the basis of colloidal silver to support wound healing and/or for the accompanying therapy of dermatological diseases, as well as odour reduction.

**Protect from frost and direct sunlight!**

**Expiration:** 24 months

**Art: 10311    Content: 100ml Spray**

### Further Information:

#### Sodium hyaluronate: (HA)

Binds moisture. Acts as carrier to take substances into the deeper cell layers. Has anti-inflammatory properties

Wound cleansing, open and scabbed wounds, therapeutic aid for skin lesions, scars and wounds.

Concomitant therapy for dermatological diseases such as

- HotSpot,
- Pyoderma,
- Malassezia dermatitis

#### Argentum colloidal:

A prestigious american science magazine wrote: "Collodial silver turns out to be a miracle of modern medicine. Whereas an antibiotic eliminates about a dozen different pathogens the collodial silver will eliminate around 650." For further information on this see also our product sheet Argentum colloidal.

## OTUBALM Ear- Solution

Ear Cleanser with colloidal silver, witch hazel + Squalene

### Contents:

Distilled water, sodium hyaluronate, Argentum colloidal 40 ppm, witch hazel, squalene

### Usage:

It is used as a preventative measure for maintaining the health of the ears. For cleaning and for caring of the outer auditory canals when inflamed. Cleansing before medicational treatment.

For maintaining the health of the ears 1-2 times per week.

For cleaning and for caring of the outer auditory canals 1-2 times daily. For cleansing the ears before taking medication as advised by veterinarian.

### Application:

Take the tip of the ear between thumb and index finger and stretch the ear. Administer a generous amount in the auditory canal. Massage the base of the ear for the duration of 60 seconds, allowing the pet to shake afterwards should they wish. After an additional 10 minutes dry the ear. We recommend using the CURADOMED ear-pad. No medicinal product. Keep away from children.

Expiration: 24 months

Protect from frost and direct sunlight!

Art: 10214

Content: 50ml Applicator

### Further Information:

#### Sodium hyaluronate: (HA)

Binds moisture. Acts as carrier to take substances into the deeper cell layers. Has anti-inflammatory properties

#### Witch hazel:

Commission E positive- monograph and ESCOP has an antiphlogistic effect, inhibits 5-lipoxygenase and cyclooxygenase. The released histamine will be reduced, alleviating itching, leading to a gentle anesthetization of the surface.

#### Squalane:

Supporting dissolution of cerumen. Squalane is found throughout the nature, it is to be found in all higher organisms and therefore also in humans. It is an essential part of skin lipids and it is also present in blood serum.

#### Argentum colloidal:

A prestigious american science magazine wrote: "Colloidal silver turns out to be a miracle of modern medicine. Whereas an antibiotic eliminates about a dozen different pathogens the colloidal silver will eliminate around 650." For further information on this see also our product sheet Argentum colloidal.

#### Otitis externa

Eliminates mixed infections from germs and yeasts. (Quelle: Science digest, The Lancet, Letters of microbiologie).

Also active against resistant species.

Dissolves cerumen.

## Neutral Shampoo

**Moisturising Shampoo for cleansing the coat and various skin diseases**

### Contents:

Distilled water, argentum colloidal 40ppm, sodium lauryl glucose carboxylate, sodium cocoyl glutamate, sodium cocoamphoacetate, lauryl glucoside, bergamot, lime, witch hazel

Colloidal silver, vegetable glycerin, provitamin B5 (panthenol) and aloe vera leafsap are the care and active ingredients of this high-quality preparation.

Carefully chosen ingredients provide a soothing and gentle skin and coat care. Gives the coat more shine.

Protect from frost and direct sunlight!

Expiration: 36 months

**Art: 11871**

**Content: 200ml**

**Art: 11871-500**

**Content: 500ml**

### Further information:

#### Argentum colloidal:

A prestigious american science magazine wrote: "Colloidal silver turns out to be a miracle of modern medicine. Whereas an antibiotic eliminates about a dozen different pathogens the colloidal silver will eliminate around 650." For further information on this see also our product sheet Argentum colloidal.

**Active washing substances** are able to remove gently and reliably pus, dead organic matter and allergenic substances.

Witch hazel is anti-inflammatory, nurtures and soothes the irritated skin.

The mild washing-active substances are on a herbal basis and ensure a good level of tolerability.

- pH – neutrality
- soap- and alkali-free
- allergies of the animal (or owner)
- very economical

**Short application time: just 5 minutes**

## Colloidal Silverwater 40ppm

The ancient Egyptians were already using silver for healing purposes.

In the old days people still knew about the qualities of silver. It is believed that it was first used in Egypt for medicinal purposes in historical times. It was used in the medicine of the Greeks, Romans, Persians, Indians and Chinese. Paracelsus (1493-1541) used processed silver amalgam in draining baths, because silver is ideal for draining mercury from the body. Hildegard von Bingen (1098-1179) understood silver as a powerful remedy for mucus and coughing, according to the ancient theory of the juice. Konrad von Megenberg, Regensburg canon and polymath from the 14th century, mentioned in his book of nature that silver as a powder mixed with noble ointments "helps against the tough rot" in the body. He recommended it among others for scabies, bleeding hemorrhoids and poor metabolism.

Treatment of newborns with eye drops of a 1% silver nitrate solution.

The introduction of the Credé prophylaxis in 1881 by the German gynecologist Carl Siegmund Franz Credé (1819-1892) greatly reduced the incidence of gonoblenorrhoea (a purulent conjunctivitis in newborns) that could potentially lead to blindness. The inflammation is transmitted from the mother at birth if she is infected with gonorrhea. In Germany, this prophylaxis was mandatory as part of the U1 preventive medical check-up until 1992.

### **What is the effect of colloidal silver:**

Recent research on colloidal silver shows that colloidal silver kills viruses. It is assumed that this takes place via the formation of DNA and / or RNA silver complexes or the destruction of the nucleic acids (source: Medical Faculty of the University of Los Angeles).

### **Multi-resistant germs are no exception.**

An enzyme that is necessary for the oxygen exchange in all aerobic single cell organisms is blocked. In anaerobic single cell organisms it inhibits the phosphate uptake. In yeasts it inhibits the enzyme phosphomannose isomerase.

It shortens wound healing by ca. 50%. It has an astringent effect on the surfaces of open wounds and in this way considerably accelerates the healing process. The skin remains elastic and there are fewer lesions at mechanically stressed areas.

Definite and neutral conclusions about the the internal use of colloidal silver are not available under the rules of conventional medicine.

We must not and we are not able to promise healing. This responsibility is subject to the doctors. The application of our products is subject to the users responsibility.

## Colloidal Silver water 40ppm

### Contents:

Distilled water, high purity fine silver  
(99,999% pure)

### Usage:

As washing for external use. For internal use to support the immune system.

Argentum colloidal 40ppm penetrates on external application the upper layers of the skin.

When administered orally it passes mainly through into the gastrointestinal tract. Here it begins working until being absorbed by the intestines. Add daily to drinking water or syringe directly into the mouth.

Bacteria, viruses, yeasts, fungi and spores are eradicated in a short time.

Blocks an enzyme for all protozoa, that is necessary for the oxygen exchange.

Shortens the healing of wounds by up to 50

### Storage:

Cool and dark, not in the fridge, do not store close to electric and magnetic fields, do not give in metal bowl, do not measure in metal spoon.

**Not a medicinal product.**

**Keep away from children.**

Art: 11867

Content: 50 ml Spray

### Argentum colloidal

### Possible applications for all pets:

Bite-, scratch-, crush-, cut- and burn- injuries, chronic wounds, abscesses, ulcers, granuloma, encapsulated collections of pus as a result of a bacterial or viral infection, even fungal infections.

**Symptoms:** swellings that are sensitive to pressure, fever, chills, fungal skin infection.

### Skin diseases:

Various fungi and bacteria, allergies, skin diseases transmitted through infected surrounding and supplies or very close contact to sick animals, allergenes.

**Symptoms:** itching, hair loss

The silver water can also be used with the CURADOMED finger-toothbrush in case of **gum inflammation**.
